1957 Chevy Stepside Truck. Condition is in good restoration condition. A solid foundation for rebuild. This is a California truck. Prior to build, it was stored on a ranch in the California Sierra Nevada Mountains. A solid start for a restoration project. NOTE: This truck is currently in a restoration process.

In process of restoring body. Removed some lower rusted metal holes and replaced with new metal panels. Metal panel work included front lower fender, doors, cab corners and rocker areas, see photos. Floor pan is in good condition. Started pulling dents. Some interior dash work completed. Still needs interior rebuild.

Installed new brakes and brake lines. Original running rebuild inline 235, inline six cylinder, rebuilt Rochester one barrel carburetor, installed electronic choke, original 4 speed, new three core aluminum radiator, new alternator, new distributor, converted to electronic ignition, new coil, new battery (12 volt system), new battery cables, plugs and plug wires, new fuel pump, new gas tank and sending unit installed. New working gauges with bezel installed. New wiring system with fuse block installed. NOTE: only gauges and ignition are connected at this time (for moving in and out of shop). New wheels and tires. Truck has its original aged

glass. There is a crack on the driver side front windshield. Passenger wing window is missing. Current California title, Plates and Registration.
